In operation:

# QuickFlex<sup>®</sup> smart

The new generation of Smart Driven Tool Holders with intelligent condition monitoring for high process reliability in automated manufacturing cells.

## True online process monitoring

Monitoring of speed, temperature, vibrations, runtime

Display of operating time and remaining time until the service interval

All data will be transferred live during operation

## Broad software solutions available

Complete data history of each driven tool holder

Automatic control of tool holder data using the myTools online portal

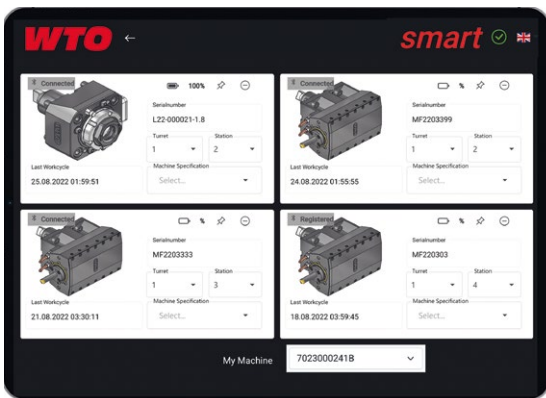

Broad software solutions for different application areas available

### Smart Monitor

App for Windows

Software for online condition monitoring

### myMachine

App for iOS

Software as Gateway and for online condition monitoring

### myTools Scanner

App for iOS

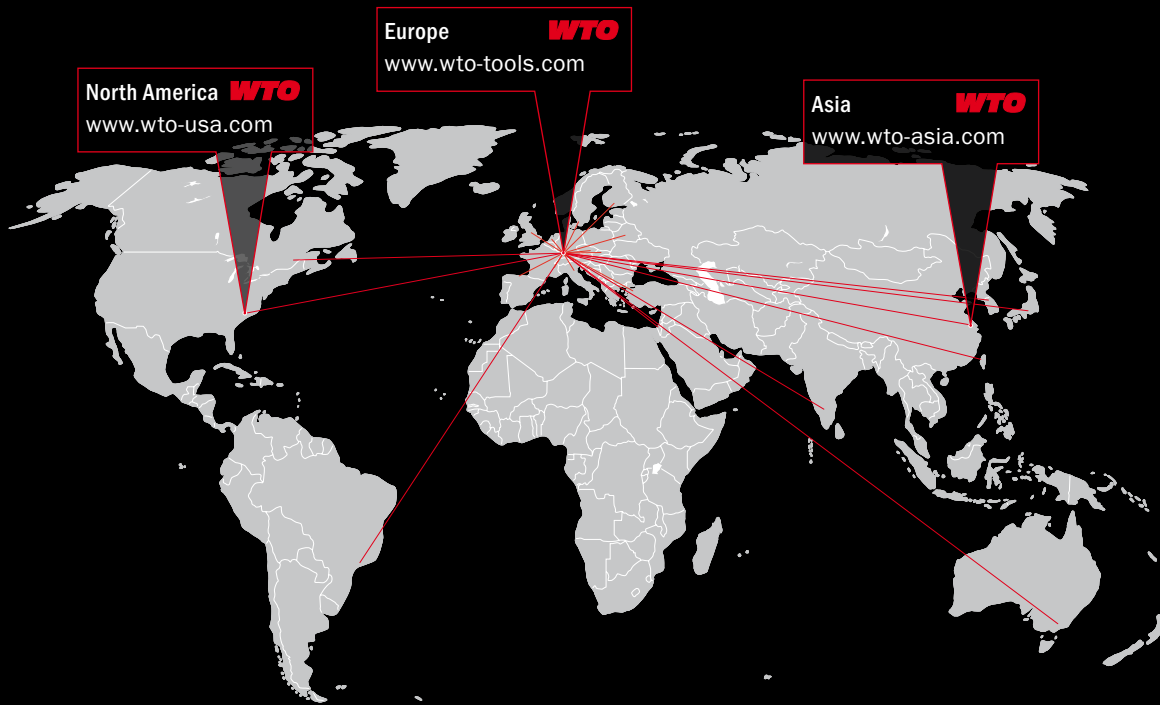

Software for identification and data display of tool holders

### myTools

MS Azure Cloud

Online portal for the tool holder administration and data control
